SUMMARY

Clinically trained nursing professional with a BSc in Nursing from Manipal College of Nursing and MSc in Nursing from Coventry University, bringing **2000+ hours of clinical experience** across multiple specialties during undergraduate studies and internship. Successfully cleared **NMC CBT and OSCE examinations** and currently awaiting NMC registration (PIN). Currently working as a Healthcare Assistant in a UK care home, delivering patient-centred care and supporting residents with daily living activities while maintaining dignity and safety. Skilled in evidence-based practice, patient assessment, manual handling, rehabilitation support, infection prevention, and working within multidisciplinary healthcare teams. Committed to delivering safe, high-quality care aligned with NHS values.

PROFESSIONAL EXPERIENCE

Healthcare Assistant March 2025 - Present

Harmony House Care Home, Nuneaton, United Kingdom

- Provide patient-centred care to residents, assisting with daily living activities while maintaining dignity, safety, and independence.
- Support residents with mobility, manual handling, and rehabilitation exercises following care plans.
- Monitor residents' wellbeing and promptly report changes in condition to senior staff and nurses.
- Assist with personal care including bathing, dressing, and hygiene support.
- Maintain accurate documentation and follow infection prevention and health & safety protocols.
- Collaborate with multidisciplinary teams to ensure high standards of resident care.

Nursing Intern 6-Month Clinical Internship

Kasturba Medical College, Manipal, India

- Completed clinical rotations across multiple hospital departments, gaining hands-on exposure to diverse patient care settings.
- Assisted registered nurses in patient assessment, monitoring vital signs, and supporting treatment procedures.
- Delivered patient-centred care while ensuring comfort, dignity, and safety.
- Supported infection control practices and maintained hygiene standards in clinical environments.
- Worked collaboratively with healthcare professionals to provide coordinated patient care.
